

AUTOMATIC RHINESTONE TRANSFER MACHINE

CAMS 1V6P NO AIR

Automatic machine for the production of hot-fix rhinestones and studs.

Equipped with 6 plates allows you to work with 6 sizes or colors simultaneously.

CAMS 1V6P NO AIR allows you to apply rhinestones and studs from 1.2 mm to 6 mm corresponding to:

SS3 - SS4 - SS6 - SS10 - SS16 - SS20 - Ss30.

Thanks to the internal compressor, it does not need a compressed air connection.

The LCD touch-screen display and software make it quick and easy to be used.
